

Dear Putnam Village Homeowner,

At last night's annual meeting we discussed the importance of moving your personal items for the upcoming roofing project. There will be a lot of old roofing material coming from the roofs, so we want to ensure none of your personal items are damaged. Please move anything that you have outside in the front, rear, or side (solar lights, planters, decorations, furniture, etc.) into your home until your building is finished.

Thank you in advance.

On behalf of Putnam Village Condominium Association
